6100 Finance/Administrative Section Organization

The Finance Section is responsible for all incident costs and financial considerations. Includes the Time Unit, Procurement Unit, Compensation/Claims Unit and Cost Unit. The IC will determine the need for a Finance/Administration Section, and designate an individual to perform that role. If no Finance Section is established, the IC will perform all finance functions. The Finance/Administration Section is set up for any incident that may require on-site financial management. More and more, larger incidents are using a Finance/Administration Section to monitor costs. Smaller incidents may also require certain Finance/Administration functions. For example, the IC may establish one or more units of the Finance/Administration Section for such things as procuring special equipment, contracting with a vendor, or for making cost estimates of alternative strategies.

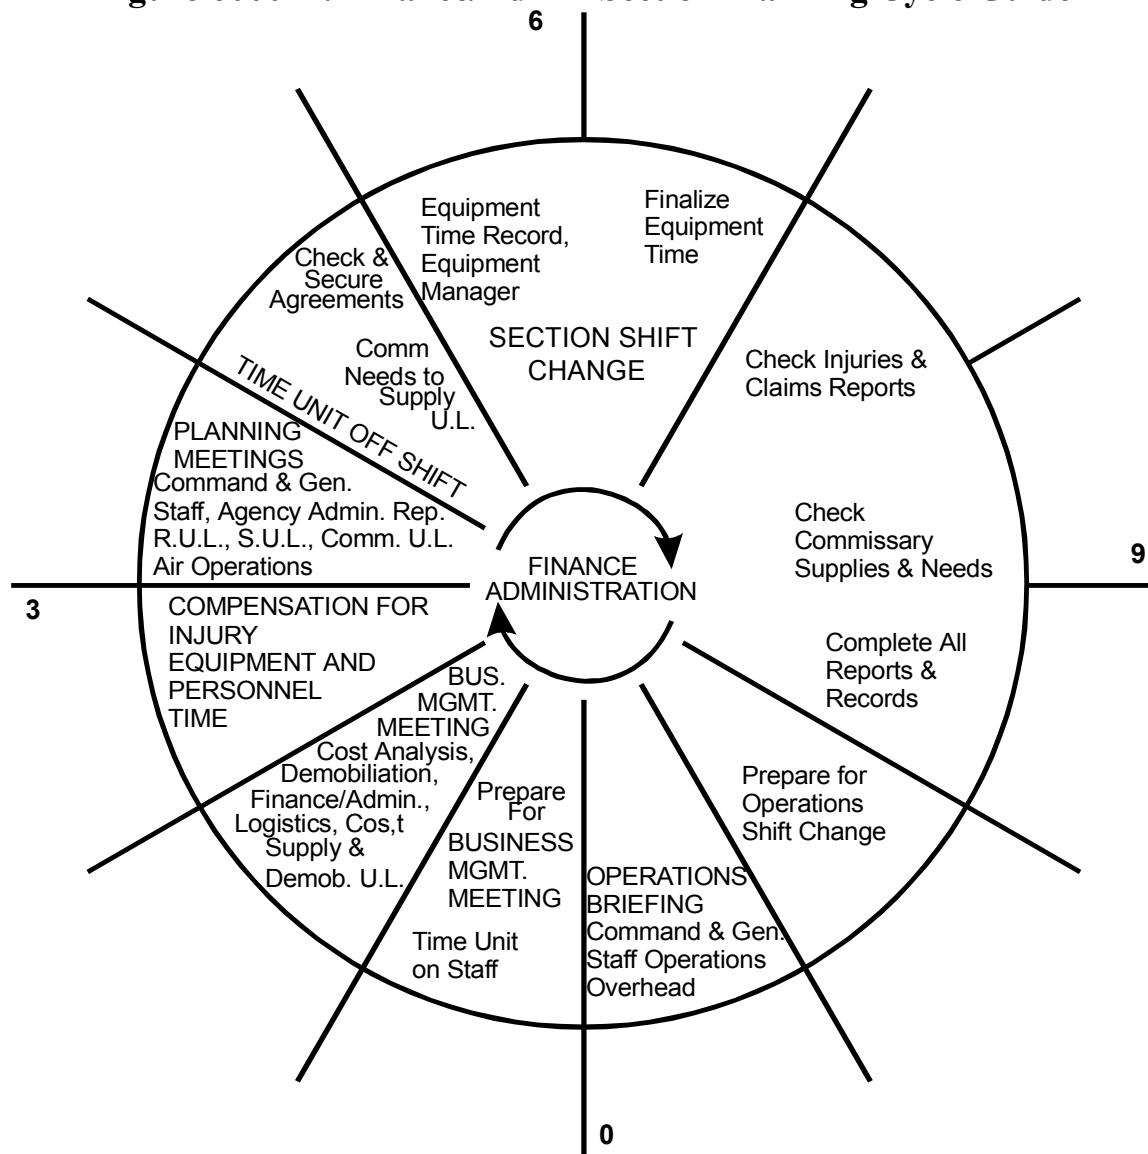

The Finance Section may establish four units as necessary. Not all of the units may be required, and they will be established based upon need.

6400 OTHER ACCESS TO FUNDS

6410 State Access to the Oil Spill Liability Trust Fund (OSLTF) - Direct and Indirect (Reference 33 CFR 133)

Information about state access to the Fund is found in 33 CFR 133 and 33 CFR 136 with additional guidance in the National Pollution Funds Center's User Reference Guide. Information from the User Guide can be obtained by contacting the Eleventh Coast Guard District Marine Safety Division Office at phone number **(510) 437-2940**. For additional information regarding these procedures or related subjects, State representatives, OSCs, and other interested parties are urged to contact the NPFC at **(202) 493-6700**.

6420 Local Access to the State Oil Spill Response Trust Fund (OSRTF)

If the Oil Spill Liability Trust Fund is opened to provide funds for a spill incident, local agencies should seek reimbursement through the OSC. If federal funds are not available or will not be available in an adequate period of time, and a responsible party does not exist or is unable or unwilling to provide adequate and timely cleanup and to pay for the damages resulting from a marine oil spill, then the State of California Oil Spill Response Trust Fund shall be used to pay necessary costs for responding to, containing, and cleaning up the oil spill. Information regarding these procedures can be obtained from the State of California Office of Oil Spill Prevention and Response Cost Recovery Unit at phone number **(916) 327-9407**.

6430 Lead Administrative Trustee Access to the OSLTF

Executive Order 12777 (October 22, 1991) requires the federal natural resource trustees to select a representative as the federal lead administrative trustee (LAT). In general, the LAT serves as the federal contact for all aspects related to damage assessment, resource restoration, and federal funding for NRDA activities. Depending on the resources affected and other relevant factors, it might be appropriate for most administrative duties to be undertaken by a lead trustee from a non-federal agency. In such cases, a LAT would still be selected to work with the representatives of the OSTLF to secure federal funds to initiate the damage assessment. All other administrative duties regarding damage assessment activities would be coordinated by the non-federal lead trustee. This lead trustee or trustee agency shall be selected by consensus of all participating trustees. The trustees will notify the Coast Guard of the LAT and, when applicable, non-federal lead trustee as soon as possible after an oil spill.

The trustees intend to execute a general Memorandum of Agreement (MOA) to coordinate their damage assessment and restoration activities. Among other things, the MOA will identify trustees, establish criteria for selecting the LAT, and provide procedures for decision making and monetary recoveries.

The LAT will contact the OSC or his/her representative to secure money to initiate the assessment of natural resource damages following an oil spill. The LAT will provide an outline of studies jointly agreed upon by the participating trustees for which funding is sought and how such funds will be allocated among the trustees. Each participating trustee will provide documentation of all expenditures, costs and activities. The LAT is responsible for coordinating all such documentation to the representatives of the OPA Fund.
